This is a 1964 Vogue Ginny vinyl baby doll. She has short light brown rooted curly hair, blue movable eyes and a mouth made to drink a bottle. She is dressed in a red velvet dress with white trim on the collar, sleeves and down the front of her dress. She is also wearing panties, white knit socks, and cream plastic shoes. Her arms and legs both move. I have included a white sailor dress with red trim and a blue bow, and 2 other knit outfits marked BABY born. There is also a plastic drinking bottle included. She is in excellent condition and comes from a smoke free home. \$20 cash only. Laurie, if you are the lady that wanted this doll back in the spring, please contact me. I lost your info.
